PROFILE

Junior Data Engineer at EPAM Systems with experience in production ETL pipelines for telecommunications, plus prior experience in test automation and web development. I work with Java, Python, Oracle SQL / PL/SQL and Apache Kafka across data extraction, processing, persistence, troubleshooting and data quality. Experienced in Agile/Scrum/Kanban teams and collaboration with technical and functional stakeholders.

PROFESSIONAL EXPERIENCE

EPAM Systems - Junior Data Engineer (Project/Client: CLARO)

01.2026 to Present

Development, maintenance and support of production ETL pipelines for telecommunications data using an Extractor → Parser → Loader architecture. Integration of sources, network elements, counters and KPIs; development with Java/Python and Oracle PL/SQL; Kafka, troubleshooting, backfills, and automated data-quality and recovery controls.

EPAM Systems - Junior Software Test Automation Engineer (Project/Client: INDUMIX)

07.2025 to 12.2025

Design and execution of manual and automated tests for an industrial product. UI automation with Java, Selenium WebDriver, JUnit and Maven; defect management in Jira, regression/retesting, and end-to-end validation across UI, API, database, PLC and MQTT flows.

EPAM Systems - QA Automation Intern (Java)

02.2025 to 06.2025

Professional training in test automation with Java, Selenium WebDriver, Cucumber, JUnit, Maven and Git; layered test architecture, BDD, clean code, Agile methodologies and Oracle PL/SQL fundamentals.

Aerobics Center - Web Developer

12.2023 to 12.2024

Development and maintenance of an e-commerce platform with WordPress, WooCommerce, Elementor and PHP; custom functionality, responsive design, SEO optimization and collaboration with non-technical stakeholders.

EDUCATION

Software Engineering | Universidad Siglo 21

2026 - Dec. 2027 (expected)

Computer Engineering | Universidad Nacional de Córdoba

2018 - 2026 (previous studies)

ADDITIONAL TRAINING

- Cyber Deployment Practitioner - OpenAI - 2026.
- ENGX Bootcamp Course - EPAM Systems.
- English Language - B2 Level (CEFR) - Universidad Nacional de Córdoba.
- DevOps Diploma - Mundos E - 2024 to 2025.
- React JS Course - Coderhouse.
- JavaScript Course - Coderhouse.
- Backend Course - Coderhouse.
- Full-Stack Web Development Diploma - Universidad Tecnológica Nacional (UTN) - 2021 to 2022.

TECHNICAL SKILLS

- Data Engineering & ETL: Java, Python, Oracle SQL / PL/SQL, Apache Kafka, Airflow, Flink.
- Databases: Oracle, PostgreSQL, MongoDB.
- QA Automation: Selenium WebDriver, JUnit, Cucumber, Maven, Jira.
- Systems & Operations: Linux, Shell Scripting, Git, troubleshooting, backfills and reprocessing.
- Web Development: PHP, WordPress, WooCommerce, React, TypeScript.
- Tools & Data: Power BI, Git, Jira, Maven.

LANGUAGES

- English - B2 (Upper-intermediate), certified by Universidad Nacional de Córdoba.
